

# HAP Case Study

## Free Upgrades Installed:

- over 600 compact fluorescent light bulbs
- 60 water saving measures (including low flow shower heads and tap aerators)
- 8 new energy star appliances (including fridges, window air conditioners and dehumidifiers)
- attic insulation and draft proofing

## Total Savings:

- approximately \$14,000 annual savings on whole co-op's electricity bill
- 94,671 kWh annual savings, the equivalent usage of 10 homes

## Aventine Co-operative Homes

*Kitchener, Ontario*

Aventine Co-op applied for the **saveONenergy HOME ASSISTANCE** Program and received **FREE** energy-efficient upgrades for their members. The Co-op is an electrically heated complex consisting of 48 town homes with 2, 3 and 4 bedroom units.

All units received a free energy assesment conducted by GreenSaver in addition to free energy upgrades including light bulbs, water saving measures and energy star appliances.

*"As a Co-operative Working with GreenSaver the experience was a positive one for our members. The people at GreenSaver were very knowledgeable and reliable. Our members were treated with respect and understanding by the team. The overall savings over the past year have been remarkable.*

*Thank you to all of the Green Saver Team for all their hard work."*

The **saveONenergy HOME ASSISTANCE program** (HAP) is a provincial energy conservation program funded by the IESO and is being offered in partnership with your local electric utility. GreenSaver will do the work to complete your application and coordinate the installations for your facilities at no cost! This program funds all costs of supplying and installing upgrades in single family-type and low-rise multi-residential suites.
